Principal's Message

If WCA is known for having visitors frequent our campus. Many of those visitors love the work that we are doing and are happy to make lasting connections or donations to help us continue the work that we cherish. Last Monday, Linda Adams, Ms. Hanson, Ms. Johnson, Helen Francisco and Erick Espinosa had the honor of taking Mr. Francisco Sánchez on a tour of our campus. Mr. Sánchez has a long and distinguished career and has served under both the Clinton and Obama administrations. His mother has been credited with bringing the Head Start Program to Hillsborough County. He has a passion for children and was thrilled to visit several classrooms. A piece of advice he left with Helen and Erick was, "Don't ever forget your culture or your first language." He thanks his dad every day for making him learn Spanish.
