Principal's Message

Wimauma Community Academy is so fortunate to have a Teacher Aide (TA) in every classroom. Our TAs play a vital role in our scholars' education. A Teacher Aide is defined as someone who works under the lead teacher's supervision to give students added educational support and instruction, which allows the teacher in charge to focus more time on classroom instruction. Our TAs do that and so much more. They support our teachers, serve as substitute teachers, monitor our scholars at lunch and recess, coach sports, provide small group instruction, interpret for teachers, serve as proctors, grade papers, make copies, create bulletin boards, attend field trips, and the list goes on. Thank you TAs for all you do to support the teachers and scholars. We certainly appreciate it and couldn't do without you!!! ❤️
